Greythorn conferred 'Legend' status by SEEK

05 October 2006, Sydney

Greythorn (www.greythorn.com) has been conferred by SEEK (www.seek.com.au), Australia's largest job board, with 'Legend' status for 2006 and 2007.

The SARA 'Legend' award is a new category created by SEEK to honour leading recruitment consultancies who have won the Annual SARAs (Seek Annual Recruitment Awards) for three consecutive years.

As a three-time winner of the SARA awards (2003-2005) Greythorn has been elevated to 'Legend' status and presented with a special trophy to recognize its quality services and high standing among IT professionals.

SEEK congratulates Greythorn on being one of the first to achieve this success. Commenting on the win, Chris Digby, CEO, Greythorn Australia, said the award is "an honour that recognises the quality of our people and the highly professional service they provide". Further, the award highlighted a long standing tradition of 'valuing candidates and contractors' as a Greythorn ethos, 'crucial in the delivery of quality services to clients across the globe'.

The three SARA Awards and the new 'legend' trophy are a testimony of Greythorn's investment in looking after the welfare and needs of the IT professional community. And this enduring service culture is set to continue in the future.
